

Direct Payments

This is a county-wide service that help the parents purchase their disabled child's assessed support needs. Instead of having services organised for them, families are given money via the local authority as a direct payment so that they can recruit a PA to help care for the child.

Direct Payments give families:

- Choice on the type of support they get
- More control over who provides the support
- Flexibility over when and where they receive the support

We also offer a Payroll Service to parents in receipt of Direct Payments and to small businesses.

We need your help

A regular donation of just £5 per month would make a big difference to our charity and the children that we support.
