

## Sponsor a Room- The Smiles Project

We Are Beams is a local charity dedicated to supporting disabled children and their families in Kent. Our wide range of services includes Family Advice, Short Breaks, Dragon's Retreat Respite Care, Supporting Independence and Payroll Service. With a goal to raise £2.5 million, we strive to continue providing vital care to the most vulnerable members of our society, supporting approximately 500 children and families at any given time. Our impact extends beyond mere care provision; we reduce social isolation, promote friendships, improve mental health and well-being, introduce new experiences, and offer families much-needed respite from the demands of caregiving.

Your sponsorship will make a lasting impact on the children and the families we support, ensuring we continue providing these vital services.

It is an opportunity to increase your Corporate Social Responsibility credentials, giving your team a greater understanding of what having a disabled child really means for families. It will also give your business further opportunity to develop diversity and inclusion policies within your workplace. Additionally, there will be positive PR and communications within the local community about our developing partnership.

For more information please contact Aisha Barut - Corporate Fundraising Executive
